To Whom it May Concern,

On behalf of the Harbour Air Group, please accept this letter confirming my support for a film studio of this scale on Vancouver Island partnering with the indigenous people of Malahat Nation. Initially, in working together with the Malahat Studio, Harbour Air looks to provide flights between Vancouver, Richmond, Victoria and the new Studio as well as Pat Bay. Moving forward we hope to further our partnership with both the studio as well as the community by expanding services such as connections through Victoria to Seattle, offering potential scenic flights as well as tour packages. Harbour Air can also assist in transporting freight and important shipments between these bases, further connecting the Malahat Nation to the rest of the Province.

Harbour Air has provided safe, convenient, and essential travel service throughout coastal British Columbia for almost 40 years and we believe that this is an exciting opportunity for South Vancouver Island. We are available and ready to further assist Beverly and her team in any way we can.

Thank you,

Randy Wright
President
Harbour Air Group
